Dear Committee Members,

I wish to apply for the Senior Programmer/Analyst positions at SUNY Cortland. Currently, I am a graduate student at University at Buffalo - SUNY in the Department of Computer Science and Engineering under the supervision of Dr. Kui Ren.

During my graduate study, I'm working as a Software Engineer developing and maintaining large-scale smartphone sensing system and mobile security framework.

I strongly believe I will be a good fit for this engineer's position due to the following reasons:

- I have the experience of developing and maintaining enterprise systems.
- I'm good at programming and have the ability for fast prototyping.
- I keep myself continuously learning new knowledge to enrich my capability.
- I pursue a work environment fills up with creative colleagues and innovative ideas.
- I have a solid background on both computer science and electrical engineering.

I would be happy to provide documents in support of my application. Please do not hesitate to contact me if further information is needed.

Sincerely yours,

Si Chen
